# Executive Profile

- M.C.C. Group, founded in 1990, is a Medical Consultancy and Construction group specializing in the Planning, Design and execution of Turnkey and Tailormade projects in the following fields:
  - Stationary Hospitals, Clinics and Operating Theatres
  - Modular and Pre-fabricated Hospitals
  - Upgrading of existing Hospitals
  - Mobile Hospitals and Medical Units
  - Erection of Field Camps and their Security Systems

# Stationary Hospitals

- Modular and Prefabricated Hospitals
- Stationary Hospitals
- Renovation and innovation of existing Hospitals
  - Maternity wards
  - Intensive Care / Triage / Post and Pre-Operative / Emergency
  - Diagnostic centers
  - Medical laboratories
  - Surgical area & Operating Theaters
  - Dialysis Units
- Stationary Medical Projects

# Stationary Hospitals

- Steel structure and prefabricated panels manufactured in factory and sent to site for fast erection

# Modular Hospitals (1/3)

- Advantages of MCC Modular Hospitals include:
  - Building in “laboratory conditions” achieving higher level of quality in final product
  - Tailor made construction in standardized sections for shipment and quick assembly on site.
  - Intelligent and new state of the art infrastructure installation.
  - Project financing program is more attractive because of milestone control.

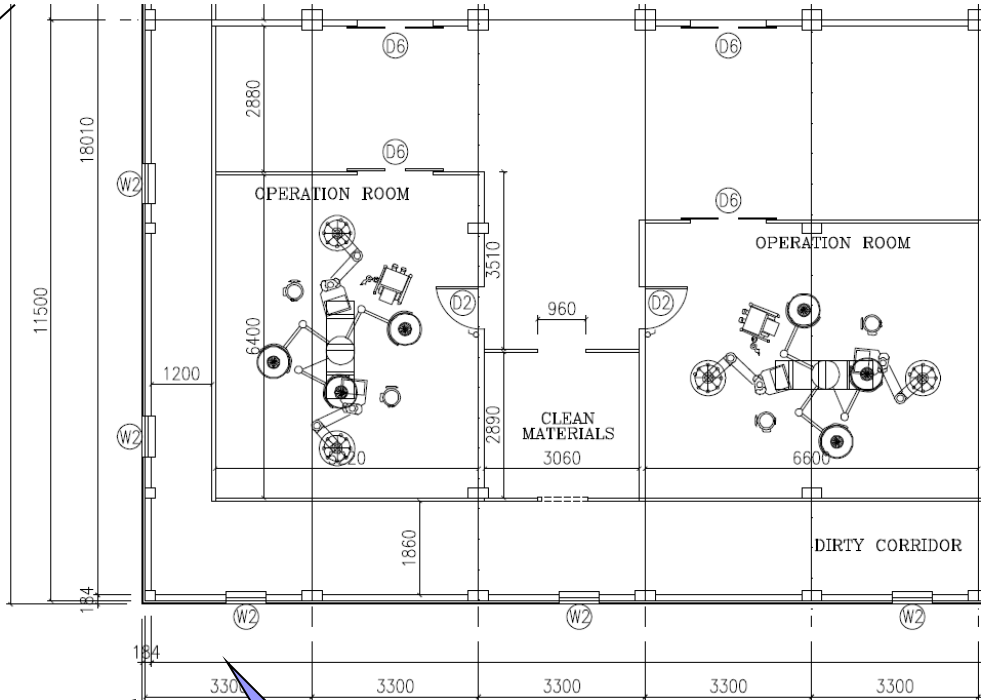

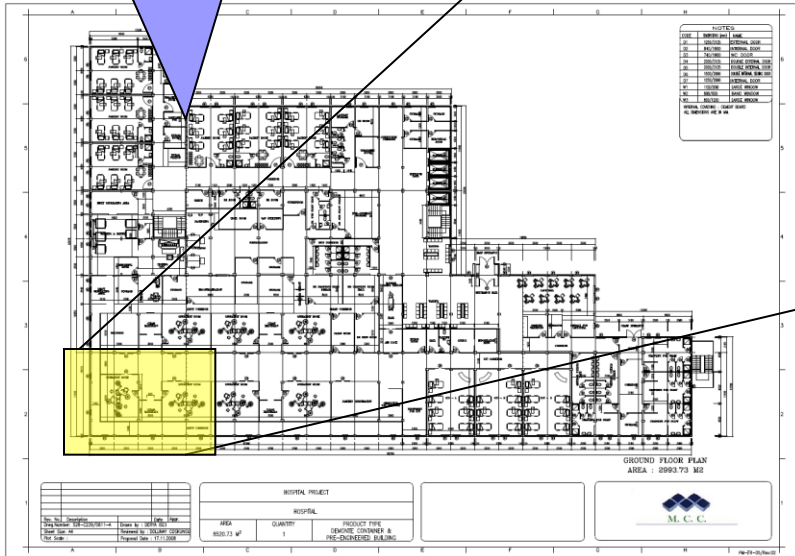

M. C. C.

Medical Consultancy & Construction

# Modular Hospitals (2/3)

Each rectangle is a prefabricated steel unit that is built in our factory and then fitted together on site

Each prefabricated steel unit is 11.5m x 3.3m x 3.8m and is connected from all four corners

All MEP installations are done in the factory to speed up erection time on site

# Modular Hospitals (3/3)

- The finished product in Brandenburg and Berlin:
  - Large degree of flexibility to meet customer demands, in architectural design and aesthetic impact.
  - All the sophisticated internal infrastructures installation, including medical gases and nurse call systems incorporated into bed heads, along with low pressure central heating, high specification air conditioning and complex electrics are professionally and tastefully integrated.

# Pre-fabricated Hospitals

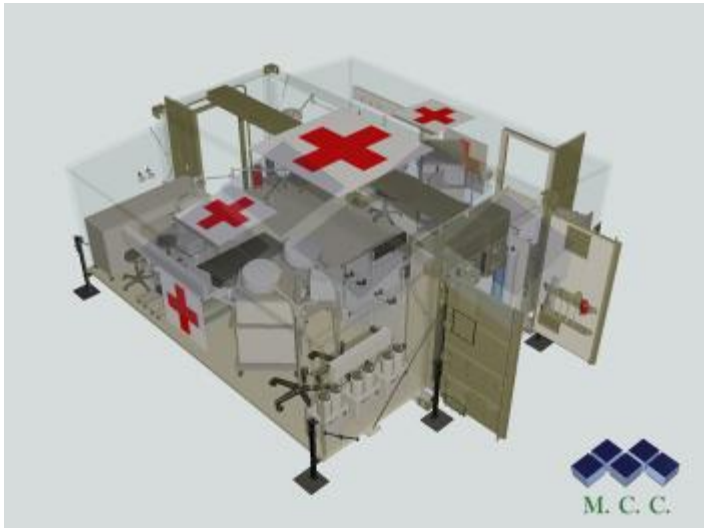

- MCC pre-fabricated hospitals combine low cost with speedy erection:
  - The units are erected quickly and efficiently on site, by using the principle of fast joining, saving and eliminating frustration of traditional on-site construction problems.
  - Simplified service and maintenance program.

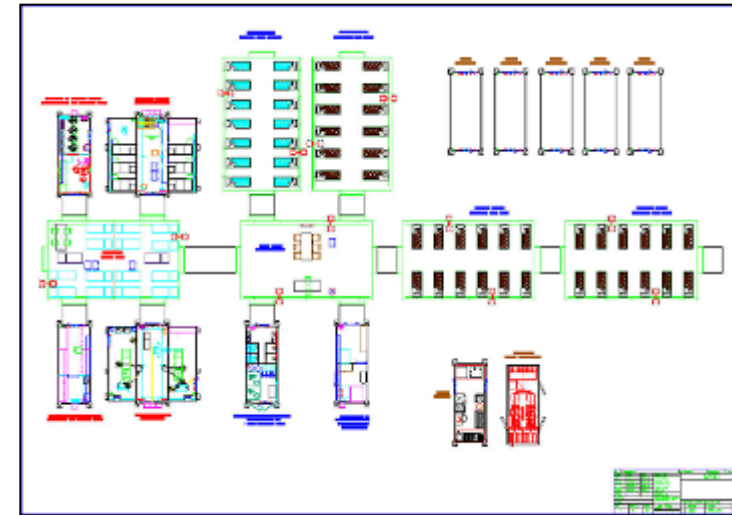

# Expandable Operating Theatres

- Expandable 1 and 2 sides
- Hydraulic, electric and manual opening systems
- ISO corners for easy transportation
- Suitable for Hercules C130 transport

# Mobile Hospital (Level II)

- Complete 40-60 Bed Hospital including:
  - Operating Theatre, Intensive Care Unit
  - Dental unit, X-ray, Pharmacy, Laboratory, Blood Bank & Morgue
  - Reverse Osmosis Water Purification, Laundry, Sterilization & Generator
  - Kitchen and Dining Room

# Mobile Hospital (Level II) cont.

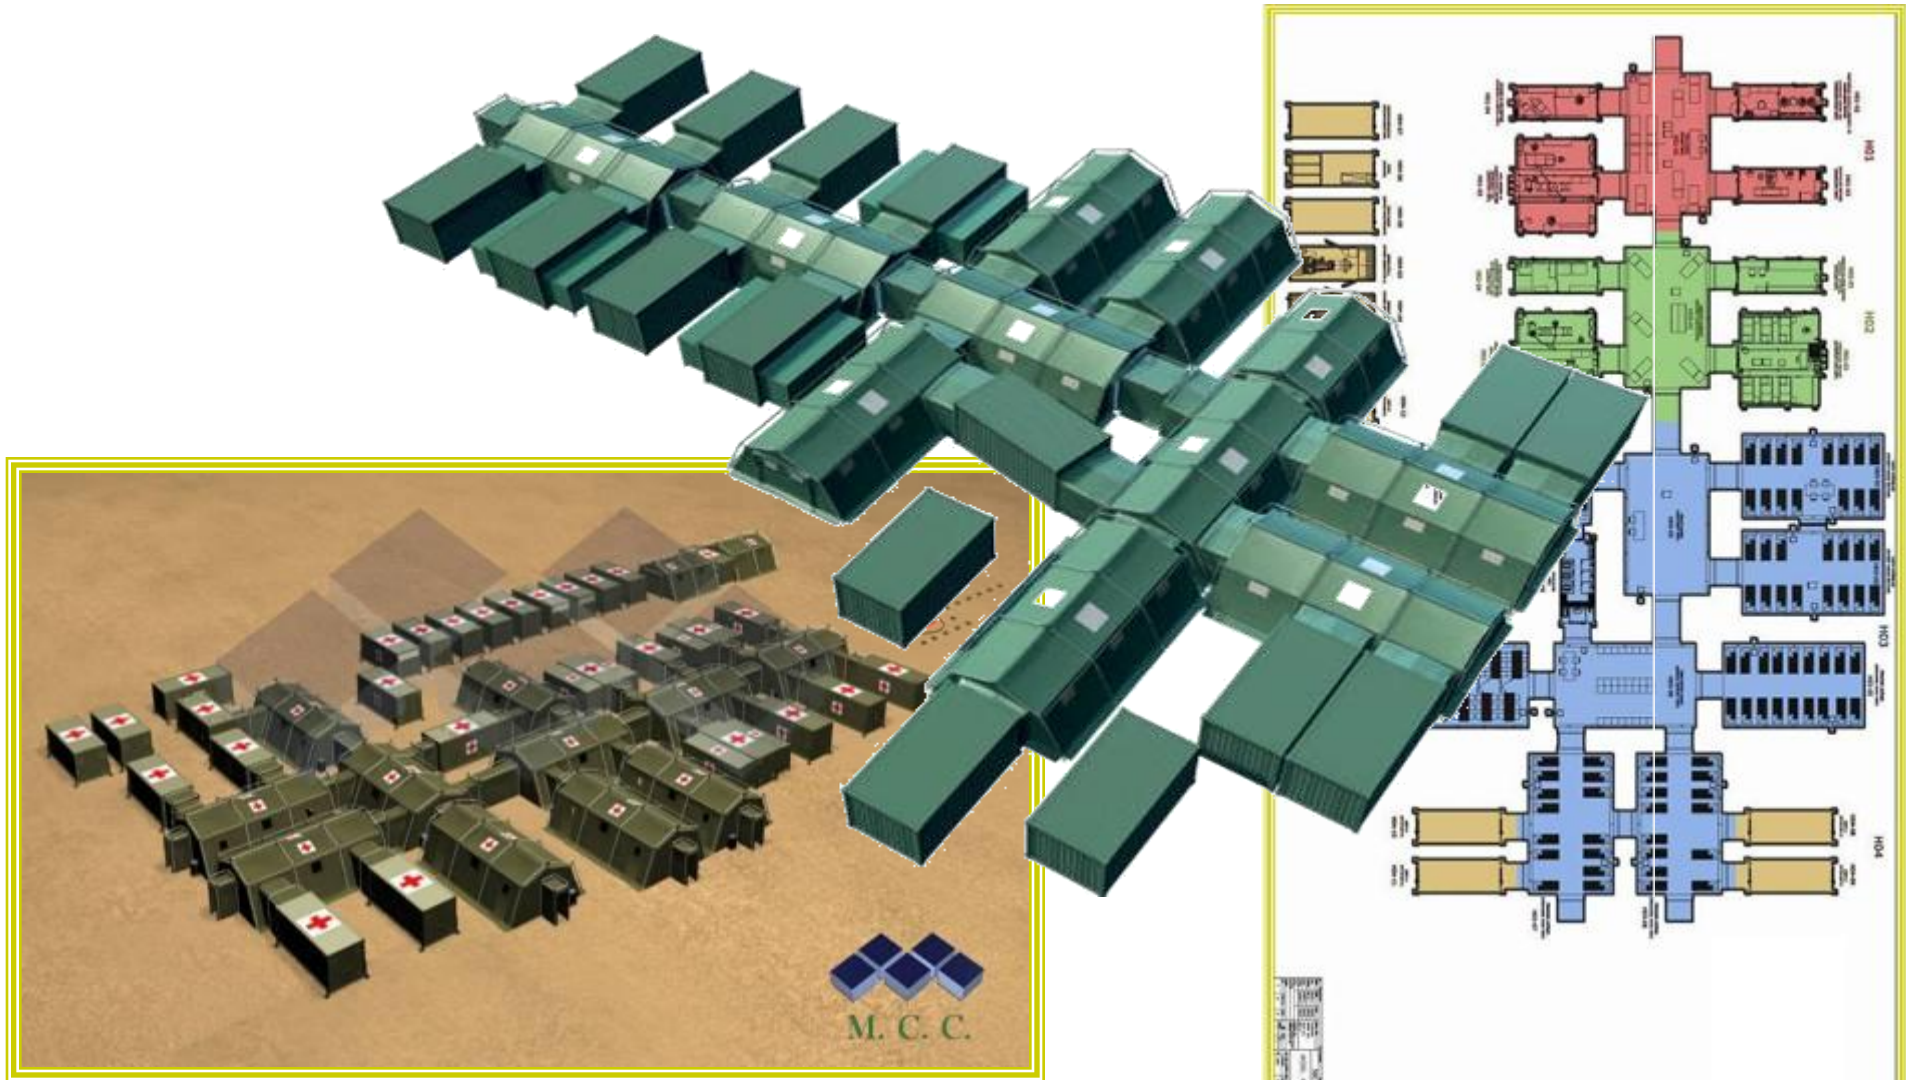

M. C. C.

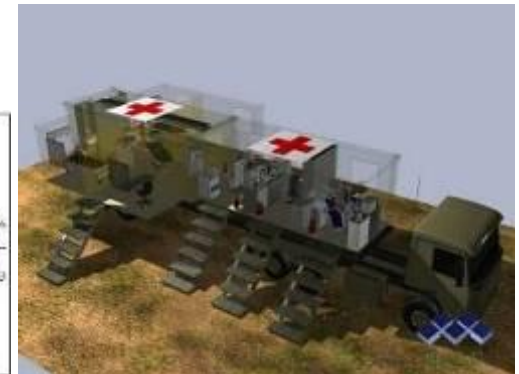

Medical Consultancy & Construction

# Mobile Surgical Hospital (Level III)

# MTC, Multi space Trailer Clinic

- Mobile medical support & treatment in a small area
- Opened in 5 minutes; deployed and fully operational in less then 15 minutes, including:
